Classifications

Total number of classifications for which the names of business or professional concerns are given opposite the classifications on pages 2, 3, 4 24

(To be considered for the organization of a Rotary club a locality must have a minimum of 40 classifications)

Former Rotarians

If any former Rotarians residing here, give names and former clubs.

Mike Kouchois - Ros - Beaumont
Ed Nettles - Spr. Branch - Houston

Surveyor's Viewpoint

(Please comment fully on your personal observations of this locality.) Having visited this area on

several occasions I am literally overwhelmed with the vast amount of building and new business moving into the area. As you know predictions are that by 1970 there will be approximately 250,000 people living in the immediate area. This is equivalent to a city about the size of Austin, Texas. New places of business are opening just as rapidly as space is available. It appears from a brief discussion of the possibilities, that there will be at least 200 good, solid Rotary classifications in the area within the next five years. Many large companies, professional men, and smaller businesses have signed contracts for space just as rapidly as arrangements can be made to accommodate them. I have reference to such companies as Foley's, Joske's, perhaps Sakowitz, and others. Also several churches and schools will be in operation in the area soon. This looks like an ideal area to start a really fine Rotary Club. The people I have met and talked with, I am confident, will make good Rotarians. It is my recommendation we proceed as rapidly as possible.

I visited this locality on 5-11-64 and 5-15-64
day month year

and believe a Rotary Club, if formed would } succeed
would not }

Signed Ellis R. Buss

Member Rotary Club of Pasadena, Texas

Address: 2105 So. Houston Road,
Pasadena, Texas 77502
