2. Monthly Greeters' Schedule established early in the administration year and proved to be effective in assigning new members for their initial introduction period.

3. Limitations:

a. Regular committee members did not respond and carry the ball as well as was anticipated, and new members had to work more or less on their own.

b. Check-in Table and limited space at entry way still precludes an appropriate sized greeting area.

c. Most members still limit themselves to greeting their special friends rather than a more open effort to the visiting Rotarians and guests.

4. Recommendations: I will forward a copy of this report to the incoming chairman of the Fellowship Committee so that he might consider the items outlined above in paragraph 3.
