Dear Bob:

It is really hard to tell you how much Grace and I enjoyed our visit in your community, and to your Rotary Club. As I have told you before, I feel your club is definately one of our outstanding clubs, and one that has a good number of "Real Rotarians", in it. I assure you it is a pleasure to visit you. This may be bad---as we will be back.

Our accomodations were ^{A2} outstanding as your club!!!! Thanks, you did so much. It was a real thrill to find the flowers. Grace really loved this. She will always treasure the Apollo Charm, and is going to use it as a pendulum. You really pleased her with this, and when she is pleased you know I am.

We both enjoyed the dinner and warm hospitality, Monday night.

Jerry was very nice and our trip with him through the Space Center was really enjoyable.

I thought the Assembly was wonderful. I have studied the committee reports and find them to be very good. They show much more activity than the plans and objectives can show with the limited space. I am calling this to the attention of our people at R.I., as I do want them to be aware of the good job you are doing. I am also mailing them a copy of your bulletin. I think Gene is doing a good job on it, and it is a little different. I like it. Please tell him for me.

Your Youth program is good. I especially like the new commitments you have this year.

As we discussed, I think perhaps your greatest need is a project, with member participation. Every club needs this and if you can come up with something that your members would do,

and enjoy, I know it would be good for your club.

CLUBS IN District 589

Please be assured of my continued interest, support and desire to be of service to you and your club.

At any time you feel Grace and I would add anything to any meeting or club function, just call or write and we will be there, unless we should be otherwise obligated.

It is a pleasure to work with you to make ROTARY 1971-72--
A SIGN OF OUR TIMES---A GOOD SIGN!!!!!!!!!!!!!!

Rotarily Yours,

Ernest Upham
