Dear Barbara:

Space Center Rotarians enjoyed your pertinent remarks. As mentioned, our club had a record attendance on this day which is directly attributable to your visit with us.

Perhaps it was evident that the club's membership is vitally interested in state government. However, it is incumbent that we become more active in the affairs of our community and state governments, and you brought this particular point out quite vividly.

I deeply appreciate your visiting with us and sharing your thoughts.

Best personal regards.

Cordially,

Robert K. Scott
President
