Dr. Jim McNatt  
 15127 Diana Lane  
 Houston, Texas 77062

Dear Jim:

A belated thank you to the members of your Club who were involved in the "Project Child Guard" program.

Final figures indicate that some 6,000 Houston and Harris County children were immunized. While I had hoped for thousands more, I am satisfied that the District's collective effort was good.

This came home most vividly during the first week-end of the program when I was on the East Coast for a Polio Plus meeting and in reading a headline in a Philadelphia paper saw that "Boy Dies of Diphtheria." That sixteen year old boy had not been immunized.

Maybe only one, but I'm convinced as should all of your members be, that our "Project Child Guard" saved lives.

Thank you so very much,

*Al*
