

## Presidential Citation

I am honored to have had the opportunity to serve as the first women President of Chapter 2010 in District 5890. Among the wide number of Clubs in District 5890, the Space Center Rotary Club is exemplary due to the diversity of its programs and the dedication of its members. This year the Space Center Rotary Club reached new horizons by focusing its attention on both the regional and international community. All four areas of Rotary service served as a pillar for this Club to build a network of fellowship and effective communications. As a result of the hard work and diligence exemplified throughout the year, the Space Center Rotary Club has set a new standard of excellence. As a group, we set aside our difference of opinion, geography, and culture, and united together to make a difference in the lives of so many people.

This year's many achievements would not have been possible without the help and many long hours put in by my officers, directors, and fellow Rotarians. In particular, we owe a great deal of our success to District Governor Steve Harris and Assistant Governor Bill Bailey whose assistance and prudent council helped to guide me through my term as President.

I can honestly say that this year has truly made a difference in my life. It has been a year that I can always remember and one that has given me the opportunity to get to know, on a more personal basis, all the warm and charming Rotarians within our club and district. I even had the valuable experience of meeting President George Herbert Walker Bush.

Wouldn't you say that this is about as good as it gets? YES!!!!

A handwritten signature in cursive script that reads "Donnie Johnson". The signature is written in black ink on a white background.
