## **SPACE CENTER ROTARY PRESENTS 2000 EXCELLENCE IN EDUCATION AWARDS**

Space Center Rotary believes the teaching profession should be honored and recognized for its contribution to our community and believes this award demonstrates its appreciation and value for our educators.

Six teachers have been selected for the ***Excellence in Education Award*** from 48 nominees representing 29 schools throughout the Clear Creek Independent School District. All Clear Creek School District full-time teachers were eligible and nomination could come from anyone familiar with the educator's work.

The elementary and secondary ***Teachers of the Year*** have been selected from among these six through a careful interview process. The finalists will receive a gold teacher's apple, a certificate, and \$300. The Teachers of the Year will each receive \$500 and a plaque, and their names will be engraved on the perpetual plaque that is displayed at the Clear Creek ISD district office.
