Dear Rotarians:

With the generous support of donors like The Rotary Club of Space Center, the Clear Lake High School Earth Angels recently competed in the Global Enterprise Challenge in Cardiff, Wales as Team USA. Thousands of students from around the world competed to represent their own countries, and the final competition included teams from Australia, England, Germany, Japan, New Zealand, Norway, Poland, Scotland, Singapore, South Africa, Wales, and the United States. The twenty-four hour competition required each team to write a business plan, to make a working model, and to create a presentation for a commercially-viable product or service in response to a global issue or concern. We are excited to report that Team USA captured the first place prize. This is the first time that a team from the United States has won the competition, and we sincerely thank you for the support you provided to make it possible for our team to attend the competition.

With appreciation,
Lauren Anderson, Ankur Dass, Maria Granato, Kevin Kin, Kade Martinez, Prashant Prasad, Lindsay Ripley, Jack Wehman,
and Sarah Zarcaro
