Dear Bill,

Howdy, Its been a long time.

As I told you, on September 15th we finally celebrated the Inauguration of our Shelter for Street Girls, and we were all very happy and felt that a dream has come true!!

We had organized a tea party at the location, that was attended by the Governor of Alexandria, the Vice Minister of the Ministry of Solidarity, some of our Sponsors, friends, family members, members of the Karmouz Association, and Club Members.

The event started with a gathering at the garden of the place, a few welcome speeches and a briefing of the whole project, followed by the Ribbon Cutting, after which the guests held a tour around the place and gathered at the dining room for some refreshments.

The event was also covered by the media, 3-4 local newspapers published articles about the project, a TV Program that held some Interviews and was broadcasted 2 days later.

It was a nice event, and attached you will find some pictures, that will be followed by others in another mail.

The NGO of Karmouz Association to which the Shelter was offered are now in the process of training the supervisors that will take care of the girls, and very soon will be ready to host the homeless girls.

The furnish is almost all done except for some very few details that are about to finish, and will start on preparing our final report. I hope that within maximum a month the report will be ready and sent to you.

Once again I thank you and all the fellow Rotarians in D5890 that have helped and joined with us in making such a dream come true.

Best Regards to all
